

Petition to withdraw holding of abandonment
37CFR1.181

Application number: 10/521,897

Applicant: John O. Gurosik

Att. Michael P. Ferguson:

Multiple-page responses along with visual aids were sent in response to office actions. The last of these were sent certified mail and the return receipt was stamped "Received USPTO Mail Center". As a result of my conversations with personnel in the legal department at the U.S. Patent Office we can only assume that some if not all of the above mentioned responses along with visual aids were either lost or misfiled. The personnel in the legal department advised me to file this petition and arrange a person-to-person meeting with the examiner along with a legal person from the U.S. Patent Office present to try to resolve any questions either side may have and hopefully give myself a better understanding of procedure required.

Thank you,

John O. Gurosik
